Harbor Hospice has been offering Camp Courage for 24 years as a way to help children and their families following the death of a loved one. The emotions of grief can be overwhelming and isolating for children who have not yet developed the verbal and emotional skills to navigate the grief process.

Children grieve differently than adults and need time to just "be kids" as well as time to honor and remember their loved one. Kids often feel alone in their grief and thrive when able to connect with others who understand their unique experience.

Harbor Hospice staff and trained volunteers create a safe, stable environment for children to explore and express their grief, remember their loved one, and connect with others who have experienced a death. Children participate in traditional camp activities along with grief-tailored activities that teach healthy coping skills.
